Hot Dog Song

The Arrogant Worms

Everybody loves hot dogs
Even pasty Hippies
'Casue its hard to beat a tube of meat
But now a question hits me

What the hell's in
A hotdog
I shouldn't ask maybe
'Cause i don't know any animals that grow cylindricaly

So have a hotdog on me my friends
It's made out of animal oddds and ends
Have a hotdog on me my friends
It's the particle board of meat

Its good to reuse and recycle
The unpopular pieces of meat
That are quite gross
Yet after they're proccesed
Are such a Delicious treat

That the children eat them 'til they're queasy
Because they love the taste
Of sodium phosphate
And iridorbate
Soy protien
And Sodium nitrate

So have a hotdog on me my friends
It's made out of animal odds and ends
Have a hotdog on me my friends
Its the praticle board of meat

May or maynot contain
Chicken and, or
Pork and, or
Meat

So have a hotdog on me my friends
Dont think 'bout the parts from the pigs rear end
Have a hotdog on me my friends
Its the particle board
The particle board
The board particle
Off mmmmmeeeeeeeeeeaaaaaaat
