

Memories Of You

The Association

Everybody told me the way that love could be
But I never thought that love

If you leave me now my happiness would die
Memories of you would always make me cry

Everybody told me in time you'd go away
But I never listened I loved you day by day

If you leave me now my happiness would die
Memories of you would always make me cry

If you leave me now my happiness would die
Memories of you would always make me cry
