

Your Own Love

The Association

You tell me you want me for your lover
You say that you want me undercover
Don't you know it's not that way
I don't have time for the games you play
Why can't you see
She's true to me
And I love her

You've got what it takes to find your own love
You've got what it takes, why be alone, love
Life's too short to fool around
The love I need I've already found
Why can't you see
Set yourself free
For your own love

Everything you need you have inside you
All the things you see are just to guide you
When you're down and when you're blue
Just think of the things your love can do
Just close your eyes
Then realize
Love's beside you

And inside you
And your known love
Is your own love
