

# Crazy

## The Asteroids Galaxy Tour

Higher  
You take me higher  
My sweetest joy  
You're my love  
You're my fall

Fire  
I'm your admirer  
Yes well, blinded by the writings on the wall  
ooh

It's going to get crazy  
It's going to get mad  
It's going to get hazy  
Making me sad  
It's going to get crazy  
It's going to get mad  
It's going to get hazy  
oo, so sad

Oh no  
Can we have no no  
Please help me disappear for good  
For a while

Let go  
If only I could let go  
Of the echoes in my mind from this love cry-y-y

It's going to get crazy  
It's going to get mad  
It's going to get hazy  
Making me sad  
It's going to get crazy  
It's going to get mad  
It's going to get hazy  
oo, so sad  
oh

well-eh-ell  
yeah hey

eeh eh

Longer  
Not to much longer  
Can I run your race-less mile  
On my face

Thunder  
My little wonder  
We're more then closer to the end of our days

It's going to get crazy  
It's going to get mad  
It's going to get hazy  
Making me sad

It's going to get crazy  
It's going to get mad  
It's going to get hazy  
oo, so sad

I run away
