

## Hero

### The Asteroids Galaxy Tour

Hey hero what you do  
Ain't gonna wait one heart on you  
Again and again  
Hey hero who are you  
Ain't got no hint, Ain't got no clue  
Now give up your name  
Let us down  
Don't let us down  
Gone find a way  
Gone find a way without you  
Though we're not the same  
No never the same  
Without you  
oohhh

Where are you, my friend so true  
How come my love gone make you blue  
I saw it today  
Tell us all your point of view  
Tell us a thing we'd never knew  
Please tell right a way  
Take us down  
Don't take us down  
Gone find a way  
Gone find a way without you  
Though we're not the same  
No never the same  
Without you  
Hey hero what you do?  
mmmm  
What you do  
oohhh
