

Sunshine Coolin'

The Asteroids Galaxy Tour

The sky is blue the end is near
A wave of heat is running clear
Walk this way come on inside
Houses chill stay a while

Your my one who make me laugh
Making out in the aftermath
Coolin' down the sun for me
Coolin' down to set me free

Ohhhh

Good times roll we're here to stay
We hide away on a sunny day
Bad times come but we're not there
We're in the shade sayin' we don't care

We don't care

Boy it's good we end it here
No more sweat there's no more fear
Escape the heat, escape the meat
Gaga folk surrounding me

Stay inside or stay in bed
You call it lazy but we're not dead
Coolin' down the sun for me
Coolin' down to set me free

Ohhhh

Good times roll we're here to stay
We hide away on a sunny day
Bad times come but we're not there
We're in the shade sayin' we don't care

We don't care

Oh oh no
