Sunshine Coolin'

The Asteroids Galaxy Tour

The sky is blue the end is near A wave of heat is running clear Walk this way come on inside Houses chill stay a while

Your my one who make me laugh Making out in the aftermath Coolin' down the sun for me Coolin' down to set me free

Ohhhh

Good times roll we're here to stay We hide away on a sunny day Bad times come but we're not there We're in the shade sayin' we don't care

We don't care

Boy it's good we end it here No more sweat there's no more fear Escape the heat, escape the meat Gaga folk surrounding me

Stay inside or stay in bed You call it lazy but we're not dead Coolin' down the sun for me Coolin' down to set me free

Ohhhh

Good times roll we're here to stay We hide away on a sunny day Bad times come but we're not there We're in the shade sayin' we don't care

We don't care

Oh oh no
