The Asteroids Galaxy Tour

Riding away I feel free to complete my beauty
Fly like a bird from my beauty
Riding away I feel free to complete my beauty
Fly like a brave from my beauty

Free your mind, you got a sweet soul
This is what you find when you reach the goal
No one here, no one there
Only you in the atmosphere

You can hang a little while by our side
Never figure out how we got high
We been waiting for this moment all our life
Now we're taking off, now wave goodbye
Free your mind, you got a sweet soul
This is what you find when you reach the goal
No one here, no one there
Only you in the atmosphere

No one here, no one there
Only you in the atmosphere
