

Edinboro

The Audition

Smother your breath with cheap champagne
The stewardess will bring me two of the same
These sort of things put you through my microphone
Projectin' love into your stereo

I won't go unheard or unknown

Carry me like jet planes crossing the sea
You fly so high that my eyes can hardly see
You lock on to me, yeah
Cabin pressure's high from body heat

This chemistry will keep us glued to our seats
It's got this boy shaking at both of his knees
A loss of breath from extreme altitude
But the signals that you're sendin' help me follow you

But I won't go unheard or unknown

Carry me like jet planes crossing the sea
You fly so high that my eyes can hardly see
You lock on to me, yeah
Cabin pressure's high from body heat

Carry me like jet planes crossing the sea
You fly so high that my eyes can hardly see
You lock on to me

Mayday, mayday we're going down in flames
Maybe, maybe this is destiny
Repeat, repeat just what you want from me
I can make tonight the best of your life
Oh, without a fight

Carry me like jet planes crossing the sea
You fly so high that my eyes can hardly see
You lock on to me, yeah
Cabin pressure's high from body heat

Carry me like jet planes crossing the sea
You fly so high that my eyes can hardly see
You lock on to me

Mayday, mayday we're going down in flames
Maybe, maybe this is destiny
