

# It's Gonna Be Hard (when I'm Gone)

## The Audition

I wanna know what you know, I wanna go where you go  
Take a trip to the end of time  
Kiss your lips, grab your hips and fly away

I want to walk in your shoes  
So I can see just what I do every time that I see your smile  
Do anything to ease your mind tonight

It's gonna be hard when I'm gone  
I'll take this time to sit down and write you a song  
With simple words and melodies to explain exactly what you mean  
to me  
Oh, Amy

You say it's time for change, I say we just need to rearrange  
All the plans that we had before, no one is walking out that do  
or alone  
But I know I have to, and she won't want to

It's gonna be hard when I'm gone  
I'll take this time to sit down and write you a song  
With simple words and melodies to explain exactly what you mean  
to me  
Oh, Amy

Let's pick it up where we last left off  
You know the part where we come unraveled, oh  
I need this memory to keep me strong  
When the weight of the world comes crashing down  
Let's pick it up where we last left off  
I need this memory to keep me strong, whoa  
Let's pick it up where we last left off  
You know the part where we come unraveled, oh  
I need this memory to keep me strong  
When the weight of the world comes crashing down

It's gonna be hard when I'm gone  
I'll take this time to sit down and write you a song  
With simple words and melodies to explain exactly what you mean  
to me  
Oh, Amy
