

Stand Up And Fight

The Audition

I just don't know if I can fend for myself
You said you'd come right away
You believe I reached the end of my age of innocence
It's something you hold and you fold
And you put away
And you're worried that I'll ...

I can't stand this
This still stands
I need some movement of balance

Face me to break me
'Cause all you've done is hide behind your lies
There comes a point in all our lives
We need to
Stand up and fight
Stand up and fight
For what's right
No matter if it's for ourselves
Or someone else
There comes a point within ourselves
We need to stand up and fight
Stand up and fight
For what's right

I've always learned to finish what I have put
Put into motion, devotion
Or anything I found
And I put it all on the line
Invested my time, and in return
I tried making something for nothing
And you ship it away to your pretty little faces
I say

I can't stand this
This still stands
I need some movement of balance
I can't stand this
This still stands
I need some movement of balance

Face me to break me
'Cause all you've done is hide behind your lies
There comes a point in all our lives
We need to

Stand up and fight
Stand up and fight
For what's right
No matter if it's for ourselves
Or someone else
There comes a point within ourselves
We need to stand up and fight
Stand up and fight
For what's right

Pushed me down

Kept me down
Kicked me face first to the ground
Save myself from this hell
Keep my pride if nothing else, hey

Face me to break me
'Cause all you've done is hide behind your lies
There comes a point in all our lives
We need to
Stand up and fight
Stand up and fight

Face me to break me
'Cause all you've done is hide behind your lies
There comes a point in all our lives
We need to
Stand up and fight
Stand up and fight
For what's right
No matter if it's for ourselves
Or someone else
There comes a point within ourselves
We need to
Stand up and fight
Stand up and fight
For what's right
