

# You Gotta Believe

## The Audition

I tried, I tried to never let you fall  
And I'd lie, I'd lie to see you coming home  
And I can't believe all the words that you said to me  
What you said to me, It's shameful to say baby that I always  
believe that I always believe

What's stopping you,  
What's stopping me from saving us from this mess,  
Saving us from this mess,  
You gotta believe, believe I tried

I can't, I can't keep on loving you  
Cause I am, I am what you love to abuse  
So many nights that I tried just to be in your arms  
Let me in to your arms girl  
But I lost the fight as hard as I tried  
I know that this war is over

What's stopping you,  
what's stopping me from saving us from this mess,  
saving us from this mess,  
You gotta believe, believe I tried

What's stopping you,  
what's stopping me from saving us from this mess,  
saving us from this mess,  
You gotta believe, believe I tried

I got it, I get it, you wanna let me go  
Forget this, I get it, I'm about to lose control  
Just wanna let you know, just wanna let you know  
Just wanna let you know

I got it, I get it, you wanna let me go  
Forget this, I get it, I'm about to lose control  
Just wanna let you know, just wanna let you know  
Just wanna let you know

I just want to let you know

What's stopping you,  
what's stopping me from saving us from this mess,  
saving us from this mess,  
You gotta believe, believe I tried

What's stopping you,  
what's stopping me from saving us from this mess,  
saving us from this mess,  
You gotta believe, believe I tried

You gotta believe, gotta believe I tried  
I tried
