

# Responsible Citizen

## The Automatic

I'm sick of government warnings that tell me to watch my intake  
.

I know my limits and I know that everyone makes mistakes.

And I tell you I'm fine, tell you I'm fine, I'll tell you when  
I've had enough.

I can't take it to heart, I want every last drop going to my head.

I'm going out of my way to go out of my mind, going out of my way.

I'm going out of my way to go out of my mind, going out of my way.

I don't want trouble or bad times, I'm a responsible citizen.

But now and then some people spoil it for everybody else.

Some people should not partake, sometimes it's a big mistake, but I have no say, you know it's in control of my control of myself.

I'm going out of my way to go out of my mind, going out of my way.

I'm going out of my way to go out of my mind, going out of my way.

And I tell you I'm fine, tell you I'm fine, I'll tell you when  
I've had enough.

I can't take it to heart, I want every last drop going to my head.

So far to walk home.

I feel so much better than I did this morning.

It's in control of my control of myself.

And I tell you I'm fine, tell you I'm fine, I'll tell you when  
I've had enough.

I can't take it to heart, I want every last drop going to my head.
