

Tear It Down

The Automatic

Why'd it get so cold,
When you left me here?
I'm right where I don't want to be,
Sitting with an empty heart

But the sea's alright this night,
It's telling me how to put it right
So tear it down,
Tear it down, tear it down,
and put it back the way we like

Promises you made,
The hope, it turned to dust,
You let me down and left me out,
Feeling like a (?)

But I'm not the only one,
I'm standing up and singing out
Well show you up, show you up,
Show you how
Show you how it's really done

What do we make of ourselves,
What do we make of ourselves,
Well we're dancing,
By the side of the road,
So what do we make of ourselves,
What do we make of ourselves,
Hiding out,
All because we don't fit in,
Don't fit in
