

Because We Are

The Autumn Film

They say that love's a thief Makes promises it never keeps So take what you want from me and go

But You said that isn't me You've seen it all and you're Here for keeps So take what you need from me Let go

(Chorus) Because we are so loved, so loved...

I walk around like it isn't safe I haven't slept for a number of days You can't take what I already gave So go

You slowly gave what he took from me You saw me hurting but you Let me grieve Now I know what you want from me Let go
