

## Revelation

### The Autumn Offering

Welcome the prince of a royal family  
We accept your heritage, of carnage, and all of the dirty deali  
ngs  
Heir to a throne, by all means, necessary  
All hail to the thieves of democracy

Take some action, and reclaim that  
Which at once, we held in the palms of our hands  
Overthrow the incompetent  
Consider the source  
Off with the serpents head  
Rape our traditions and values as they are left for dead  
Victimizing demons while demonizing victims  
Look past the lie

Divide, conquer, pillage, destroy

First of the agenda  
Fulfill the patriarchs revenge  
And reeking havoc upon our land  
Let me ask one question,  
Who children did you slaughter before your rest today

Divide, conquer, pillage, destroy

Take some action, and reclaim  
That which at once we held in our hands  
Overthrow the incompetent  
Consider the source  
Off with the serpents head  
Off with the serpents head  
Rape our traditions and values as they are left for dead  
Victimizing demons, while demonizing victims  
Look past the lie  
Look past the lie

Rape our traditions and values as they are left for dead  
Victimizing demons while demonizing victims

Look past the lie
