## The Avalanches

Johnny, Johnny, open up Johnny, it's Frank, open up Look you've been in there for three weeks Now come on, open up

Johnny, Johnny, out of my way I'm watching television, are you crazy? That's the test pattern, I like it

Well, there are two things to be done First of all, we put him in the hospital And withdraw all television, I see And then, we give him this radio

Radio, radio, radio, radio, radio

Sending those signals, sending those signals Sending those signals, those digital signals Sending those signals, sending those signals Sending those signals, those digital signals

Sending those signals, sending those signals Sending those signals, those digital signals Sending those signals, sending those signals Sending those signals, those digital signals

Two times you do, understand Is it as good, understand Two times you do, understand Is it as good, understand

Two times you do, understand Is it as good, understand Two times you do, understand Is it as good, understand

Sending those signals, sending those signals Sending those signals, those digital signals Sending those signals, sending those signals Sending those signals, those digital signals

Sending those signals, sending those signals Sending those signals, those digital signals Sending those signals, sending those signals Sending those signals, those digital signals

Oh, can't you hear it? Can't you hear it?
