

I Want In

The Avengers

You've been running 'round
Going steady with everyone
leave me here alone
well, Baby, that's no fun

I want in to your head
I want in to your heart
Don't leave me in the dark
'cause I want in

Got millions of boys
waiting in a line
but they're such bores
Baby you're so fine
Why don't you let me in
I won't mess up a thing
I'll be your sugar queen
You can be my cock house king

I want in to your head
I want in to your heart
Don't leave me in the dark
'cause I want in

You've been running 'round
Going steady with everyone
I'm left home alone
well, Baby, that's no fun
I need to stop the pain
that's going through my brain
you're the only one that can
why don't you be my mystery man

I want in to your head
I want in to your heart
Don't leave me in the dark
'cause I want in
