

Armageddon Style

The Awakening

Radiation like a new born cage
Annihilated on the centre stage
Feed the hungry amphetamines
Drive the lonely in death machines

Burning and turning and burning
Come on and take me
Bleeding, deceiving and bleeding
Come on and take me
Higher than fire for hire
Come on and watch me die
Armageddon style

Deviation like the passing time
Devastation of the one track mind
Lead the weak to needle dreams
It's a holocaust of beauty queens

Burning and turning and burning
Come on and take me
Bleeding, deceiving and bleeding
Come on and make me
Higher than fire for hire
Come on and watch me die
Armageddon style

Lose your mind and let it go
