LazyEye

The Axis of Awesome

When he looks at you you can't tell what he sees he looks straight ahead But he's off by several degrees. with his sunglasses on you wouldn't notice most days but when he's taking them off he's looking two different ways

that's cause he's the man the man with the lazy eye don't mess with the man the man with the lazy eye.

the medical name
is ambliopia
its been to attributed to
an undeveloped cornea
he still has his licence
it don't impair his vision
he still has to wear glasses
but for a different condition

that's cause he's the man the man with the lazy eye don't mess with the man the man with the lazy eye. lazy eye x4

don't touch him in the privates
