Dancing Now

Love is gone But just for a while It's full speed ahead Now I can smile You twisted my heart With your wicked plan But I saw the signs Before I, I melted in your hands

I finally broke through - dancin' now Before I broke down - dancin' now You messed around - dancin' now I didn't fall for anything I landed on my feet

Yeah you - thought I would crash But I broke through Dancing on the edge of the flames Showing the burn ignoring the pain (Dancin' dancin' dancin') (Oooh edge of the flames)

I finally broke through - dancin' now Before I broke down - dancin' now You messed around - dancin' now I didn't fall for anything I landed on my feet

I finally broke through - dancin' now Before I broke down I was no fool - dancin' now - you messed around

Venus went away To a lonely outer star Now she's back And here we are Now she's back and Here we are

I finally broke through Before you broke own I was no fool No you were a clown I'm dancing on the edge the edge of a flame Showing no burn And showing no pain
