

Turn And Walk Away

The Babys

You still believe you love him
I still believe Im right
Youre lost and I can't find you
Youre somewhere in the night
Weve got nothing left to talk about
This time it's goodbye
But you can't hurt me anymore
Ive no more chance to cry
Walk away
Gonna build our plans to start again
Walk away
Were gonna turn our backs on love
And walk away
Captivated by you
Im reaching for your love
Living in your shadow
But that was not enough
You don't seem to care about
The reasons that I give
Well go fall in love again
Survivors always live
Walk away
Gonna build our plans to start again
Walk away
Were gonna turn our backs on love
And walk away
I love you
I love you still
I am broken by your words
But I love you still
Walk away
Gonna build our plans to start again
Walk away
Were gonna turn our backs on love again
Walk away
Turn around
Turn and walk away
Were gonna turn our backs on love
Walk away
Turn around
Turn and walk away
Were gonna turn our backs on love
Walk away
Turn around
Turn and walk away
Were gonna turn our backs on love
Walk away
Turn around
Turn and walk away
Were gonna turn our backs on love
