Call me a wild man Well I've seen the world I've had it all in my hands I had some love but I lost my way I threw it in for the band Oh Oh Call me a wild man And I'll never know Oh Oh Call me a wild man And I'll never know Call me a rover Cause I've seen some sights I've had the things that make men smile But through these years As I reached the end Oh I need a friend Oh This ain't like I thought it would be no I'm just a sailor on the deepest dark sea Ah Looks like life's got the best of me I'm just a young man But at least I've tried Call me a wild man Yeah I've seen the world I've had it all in my hands I had some love but I lost my way I threw it in for the band Oh Oh Call me a wild man and I'll never know Call me a wild man and I'll never know Oh Oh

Call me a wild man and I'll never know
