

A Better Way To Save The World

The Badlees

You stand on your platform and present your views
You hand out your opinion like it's the daily news
While you're checkin' your look in the mirror
From your head down to your shoes
But you don't know
A better way....a better way to save the world
You are not my conscience and you are not my keeper
I ain't no saint, I ain't no saviour, but brother you ain't eit
her
So let's leave the judgements up to Jesus and St. Peter
'Cause you don't know
A better way....a better way to save the world
So before you accuse me take a look at yourself
You're just as lost and confused as everybody else
And a man never looks behind a door he hasn't stood behind him
self
And you don't know
A better way....a better way to save the world
