

She's The Woman

The Badlees

She's the woman I chose to own me
She's the woman I gave the reigns
She picks me up when I'm feelin' lonely
She pays the bills, I can't complain

She's the woman who understands
She's the woman who loves her man

She's the woman who stayed in college
She's the woman got an MBA
She's using all her higher knowledge
She got me where I am today

She's the woman who understands
She's the woman who loves her man

She's the woman I've been looking for
She wakes me up and helps me off the floor

She's the woman who does the drivin'
She takes me there, then she gets me home
I don't have to be out there buyin'
She sits with me while I drink alone

She's the woman who understands
She's the woman who loves her man
