

## Beautiful Thing

The Band

I've told you once, now you should know  
The reason that I'm coming down.  
There ain't no time to repeat again;  
Just need to bring it around.

We had a beautiful thing going,  
You couldn't see things my way.  
We had a beautiful thing going,  
Something just got in our way.

And I told you once that it was rough.  
I looked on you as my friend,  
Because that did not seem to be good enough,  
And now it's time to begin.

We've got a beautiful thing going,  
I hope that's the way it will stay.  
We've got a beautiful thing going,  
Nothing can stand in our way.
