

Thinkin' Out Loud

The Band

I was thinkin' out loud
Talking to myself
I was up on a cloud
There was nobody else

No, no, no I did not call
I never was allowed
To speak up at all
I was just thinkin' out loud

Transylvania Train, circus never came
Heroes are all gone
No trampoline, fell without a scream
Who's looking for a job? Oh oh

Before I realized, I was hypnotized
Flashback to the past
Cross eyed jack, monkey on his back
Knew it would not last

Room service gone off duty
Bellman has retired
This hotel is a beauty
Even the house dick's been fired

Then the sky came crashing down
Knocked me off this cloud
When I fell to the ground
I was just thinkin' out loud
