

# Certified True

The Bar-Kays

True value  
Tell me are you certified true  
True value  
Tell me are you certified true

Hit and run, carried none  
That's how it used to be  
Until I slipped and tripped  
And lost grip  
Put a hurting on me

Now I've been convinced ever since  
Now I'm a wise old man, well  
It ain't no fun when the one  
That you love slips out of your hands

If you want your love to stay around  
Don't play around  
It's up to you to be true  
That makes you, oh

Certified true, baby, baby  
Certified true (certified)  
Certified true  
Now tell me what about you

I'm certified true  
I'm certified true (say what)  
I'm certified true  
I'm certified true

I'm like no other  
I don't play no games  
I've passed every test  
In love's name

I've got a heart of gold  
If you'll just be true  
I won't ever stop  
I'm good to the last drop

If you want your love to stay around  
Don't play around, be like me  
It's up to you to be true  
That makes you, oh

Certified true, baby, baby  
Certified true (certified)  
Certified true  
Tell me, baby, are you

Certified true  
What about you  
Certified true  
What you gonna do

I'm certified true

I'm certified true  
I'm certified true  
I'm certified true

You know you're certified  
Know you search your mind  
Be like me  
It's not hard to do  
It's all up to you

That makes you, oh  
Certified true value  
You can't put a value on me  
'Cause I'm certified and riding high  
Can't put a value on me, oh, girl

I'm certified true  
I'm certified true  
Say it again  
I'm certified true  
I'm certified true  
Are you certified true, yeah

True value  
True value  
True value  
True value

Certified true  
Baby, baby, certified true  
I'm certified (certified)  
True (certified true, yeah)
