

# My Everything

The Bar-Kays

I've been around the world once or twice  
I've had a lot of loves in my life  
But none could compare to the fullness of love  
that I've found in you

And timeless the moments we share  
Whenever in need you were there

I ask the heavens to send me an angel  
and that's what you are

You are my morning  
You are my night  
You are the thought when I open my eyes  
You are the reasons that birds do sing  
I see you're more,... You're my everything

You are the one til death do us part  
You are the lifeline straight to my heart  
You are the sunshine after the rain  
Baby you're more,... You're my everything

And all of my dreams were you  
Now all of my dreams have... come true  
No one could ever tell me that life could be better  
baby, than loving you

You are the reason I live  
And I promise always, to give  
My heart, my soul, the last breath that I breathe  
will be for you

Because you are my morning  
You are my night  
You are the thought when I open my eyes  
You are the reason birds do sing  
I see you're more,... You're my everytrhing

You are the one, til death do us part  
You are the lifeline straight to my heart  
YYou are the sunshine after the rain  
Baby you're more,... You're my everything

You know the minutes seem like hours when we're apart  
And I just never know what to do

And I know how things will end  
But girl I know when I wake my day starts loving you

You are my morning  
You are my night  
You are the thought when I open my eyes  
You are the reason birds do sing  
I see you; re more,... You're my everything

You are the one til death do us part  
You are the lifeline straight to my heart

You are the sunshine after the rain  
Baby you're more,... you're my everything
