

You're Already Gone

The Basics

You're already gone
I knew you wouldn't stay
Now I'm just killing time
'Til you come crawling back again
You know you always say you're sorry
When you walk in
Let's get talkin'
You're already gone
Gone to find your way
But then you lose your courage and your hope
So you come see me again
This time you'll say you really love me
Call me honey
Take my money
You're already gone
I think the best of you
When you're away
You'd get the best of me
If you'd stay for more than a day
But you're already gone
Didn't even need to pack
You never leave nothing behind
'Cause I know you're coming back
This time you'll say you really need me
You wanna show it
Before I know it
You're already gone
I think the best of you
When you're away
You'd get the best of me
If you'd stay for more than a day
I can show you, love
All you want, all you need
Is right here
But you're already gone
I knew you wouldn't stay
Now I'm just killing time
'Til you come crawling back again
You know you always say you're sorry
When you walk in
Let's get talkin'
You're already gone
This time you'll say you really love me
Call me honey
Take my money
You're already gone
You know, this time, you say you need me
You wanna show it
Before I know it
You're already gone
