

## Dogsong (aka Sleep Dog Lullaby)

The Be Good Tanyas

All the dogs are haunted  
And the snow melts on the grass  
You were what I wanted  
But the fever could not last

In the day, I am dreaming  
In the night, I am cold  
While the stars are up there singing  
All the dogs are growing old

No regrets, they're out the window  
Frozen on the silver pane  
Gone like winter, let the wind blow  
Let the dogs howl at the rain

In the day, I am dreaming  
In the night, I am cold  
While the stars are up there singing  
All the dogs are growing old

Oh the cats are in the alley  
And the rats are on the wire  
Time is breathless as a blossom  
And it's bursting with desire

And the dogs they wander freely  
Through the streets of long gone dreams  
Drift like ghosts down the backroads  
All the way to New Orleans

In the day, I am dreaming  
In the night, I am cold  
While the stars are up there singing  
All the dogs are growing old
