

## Hello Love

The Be Good Tanyas

Hello love my old friend  
Sure is good to see you again  
I stood out, on the road  
Just a watchin' the cars  
A come and go  
I felt empty, I felt bare  
I really thought that I could not care  
All the leaves are soaking wet  
How succulent a little spring day gets  
If you kiss me once  
Out here in the rain  
We'll go back and start all over again  
So lift up every voice and sing  
Sing to the tree tops  
And everything  
Say hello love  
My old friend  
Sure is nice  
To see you again
