

## Isle of Desire

### The Beauty of Gemina

In the silence of the night when all these shapes as bright  
And I'm leaving my visions all so mystified  
I'm just dreaming on when they are all gone  
And I follow these stars and my seek is unknown

So I'm coming I'm coming to this distant isle  
And I'm taking him in with full fire  
Another taking isle taking them taking me  
Find a person who's a shipwrecked in a misty dawn

Where these dancers are dancing all with this fire  
And their hope and their dream keep this lost desire  
And I fear while they're singing that I'm being seen  
Cause I'm tired to fall down and I'm feeling home

And I'm taking this fire  
And I'm taking this fire
