## **Isle of Desire**

## The Beauty of Gemina

In the silence of the night when all these shapes as bright And I'm leaving my visions all so mystified I'm just dreaming on when they are all gone And I follow these stars and my seek is unknown

So I'm coming I'm coming to this distant isle And I'm taking him in with full fire Another taking isle taking them taking me Find a person who's a shipwrecked in a misty dawn

Where these dancers are dancing all with this fire And their hope and their dream keep this lost desire And I fear while they're singing that I'm being seen Cause I'm tired to fall down and I'm feeling home

And I'm taking this fire And I'm taking this fire
