

Last Night Home

The Beauty of Gemina

The night is cold
The night is cold
The night is cold
Cold and dark
Still got my beating heart
The night is cold
Cold and dark
Still got my beating heart
Your god is old
Your god is old
Your god is old
Old and smart
Is a hunting guy
Your god is old
Old and smart
Is a hunting guy
The night is cold
The night is cold
The night is cold
Cold and dark
Still got my beating heart
The night is cold
Cold and dark
Still got my beating heart

And when it's fading away
And when it's fading away
When it's fading away
It's fading away
On your wall but it's on your way
Go on, go on, go on
Fading away
Go on, go on, might stay
I'm hiding all the way
Fading away
Fading away
Fading away
We will all die
We will all die
We will all die
We will all die
We will all die
We will all die
