

Violently

The Benjamin Gate

White lights flashing
Blood pouring violently, fight, got to get through
Got to reach till we find You, got to find You, oh, oh, oh

Got to fight, got to fight till we reach You
Got to reach till we find You
Got to fight, got to fight till we reach You
Got to reach till we find You

Got to fight, got to fight till we reach You
Got to reach till we find You
Got to fight, got to fight till we reach You
Got to reach till we find You

Whispers
I can hear You screaming silently
Cries of joy, pain or is it healing? Oh

Got to fight, got to fight till we reach You
Got to reach till we find You
Got to fight, got to fight till we reach You
Got to reach till we find You

Got to fight, got to fight till we reach You
Got to reach till we find You
Got to fight, got to fight till we reach You
Got to reach till we find You

Got to fight, got to fight till we reach You
Got to reach till we find You
Got to fight, got to fight till we reach You
Got to reach till we find You

Got to fight, got to fight till we reach You
Got to reach till we find You
Got to fight, got to fight till we reach You
Got to reach till we find You
