

# Retribution

The Berzerker

I can't take anymore  
Can't take anymore  
Knowing that you're still out there

Forced into the corner  
I'll feel better when  
I know your life is over

It's good of you to submit yourself to this torture  
When all the rest are thinking, I'm in such agony  
With force I could take of your respect and honour  
Watched all your bullshit and I must say it sickened me

There was a time when all I could do was sit by  
And watch the hatred and the pain go by

Now, payback has arrived  
I'll break your fucking jaw  
Try me and you'll find out for yourself  
What I'm really like  
Reality's torn apart  
Make's me think I'm not part of this

Decide, decide  
Which life should I take?  
The forces are against you now

Decide, decide  
It's good of you to submit yourself to this torture  
When all the rest are thinking, I'm in such agony  
With force I could take of your respect and honour  
Watched all your bullshit and I must say it sickened me

There was a time when all I could do was sit by  
And watch the hatred and the pain go by

Now, payback has arrived  
I'll break your fucking jaw  
Try me and you'll find out for yourself  
What I'm really like  
Reality's torn apart  
Make's me think I'm not part of this
