

## On Bedford and Grand

### The Besnard Lakes

You wouldn't believe the things that we saw  
When we took the L-train  
The centre of culture at the time

You live in the city, city to city

You wouldn't believe the things that we saw  
It was a chemical warfare  
Were we good or were we being bad?  
Creating culture on the bang

You live in the city, city to city
