I Know

The Beta Band

I know, I can't find you I'll go to sit beside you I need to remind you That I still, I still love you

I know, I can't find you I'll show everyone around you That I need to be with you I still, I still love you

But I know, I can't find you I know, I can't find you I know, I can't find you I know, I can't find you
