## Simple

The Beta Band

It's a Tuesday night and I can't be With the people that I love tonight Left me alone and I can't forgive them I guess I'll be on my own

I tried to see it their way, I tried to be alone I tried to do my own thing But the trouble with your own thing Is you end up on your own

It's a Tuesday night and again I seem To be on my own for the second night in a row Simple lesson here is to try and find a friend To try and find a friend, to try and find a friend

Can you hear me? Can you hear me?
