

My Christmas Was In June

The Beu Sisters

It was summer
I did love you true
Feelin' like a fool

Fall passed by
I though you'd fade away
But you left me with the pain

Winter calls for falling snow
You promised me you'd never go
And Christmas will be here
And Christmas will be here
It's the hope I'm clinging to
My Christmas was in June
My Christmas was in June
When I was still with you

December discovers
It was summer love
I wondered if you knew

Snow that freezes
Ocean breezes, blue
A place that we once knew

Winter calls for falling snow
You promised me you'd never go
And Christmas will be here
And Christmas will be here
It's the hope I'm clinging to
My Christmas was in June
My Christmas was in June
When I was still with you

Broken pieces
Grown on beaches by you
When you broke my heart in two

Winter calls for falling snow
You promised me you'd never go
And Christmas will be here
And Christmas will be here
It's the hope I'm clinging to
My Christmas was in June
My Christmas was in June
When I was still with you

This December
All I'll remember is you
My Christmas was in June
My Christmas was in June
My Christmas was in June
My Christmas was in June
