

At War With The Sun

The Big Pink

Up for too long
At war with the sun
A crown of stars that we all wish upon
And you whisper to me
Are we out of time?

And if it's so
Then don't let go
And show me where
Your tear drops run
All ragged bloom we're all let loose on
Hands disappear
Pull you close
Shoot out the lights for all your pleasures

Young hearts
Know nothing but say it all
Celebrate no control
But is it enough to realise your love
And miss us when we're gone
Live for the words that we sung
And don't let go

No one hears as no one cares
Until we all fall over the edge
Surrender all thoughts
The odd ones out
And I said
We'd meet tonight

Into the dark
And out of this world
Blow a kiss
And burn it down
Together we'll live then turn to dust
Through the smoke
And into the sun

Young hearts
Know nothing but say it all
Celebrate no control
But is it enough to realise your love
And miss us when we're gone
Live for the words that we sung
And don't let go

To feel
To see it
On it
I'm on it

Young hearts
Know nothing but say it all
Celebrate no control
But is it enough to realise your love
And miss us when we're gone
Live for the words that we sung

And don't let go
