

Stop The World

The Big Pink

Obsessed
With the shades of a ghost face
They don't belong here
We set them free

Obsessed
With the feeling you held
I'll meet you down there
Send us to sleep

To dream alone
Stop the world
For as long as we want
To love, to hold
To stop the world
Forever we'll sing along

Loveless
I suggest you go there
To magnetic zero
The world as you want it

Loveless
I'm afraid to kiss again
We dream to remember
Send us to sleep

Stop the world
Stop the world
