

## Too Young To Love

The Big Pink

Once, now and then and never again  
Once, now and then and never again  
All night we turn and turn  
It makes sense to turn again  
All night we turn and turn  
Innocence, too young to love  
Alone

Once, now and then and never again [x4]  
Break

Once, now and then and never again  
Once, now and then and never again

All night we turn and turn  
It makes sense to turn again  
All night we turn and turn  
Innocence, too young to love  
Alone

Alone alone alone  
And you're too young to love  
And you're too young to love

Once, now and then and never again  
Once, now and then and never again

All night we turn and turn  
It makes sense to turn again  
All night we turn and turn  
In a sense too young to love  
Alone
