All of Nothing

The Birthday Massacre

Once upon a waste of time All I had was never mine Until you

From every heart, blood ran cold Nights moved fast, and days moved slow Until you

I was looking for an ending when I fell into you You were like a dream, cause you never came true You said it all meant nothing to you

Now you turn around and tear me just for something to do You like to make it bleed, but you never cut through You say it all means nothing to you

A bed of nails beneath these sheets Conversations in my sleep Until you The lowest thoughts so close to me Reaching out from underneath Until you

I was looking for an ending when I fell into you You were like a dream, cause you never came true You said it all meant nothing to you

Now you turn around and tear me just for something to do You like to make it bleed, but you never cut through You say it all means nothing to you
