

## The Other Side

## The Birthday Massacre

Let me show you the way through the water  
You don't have to explain yourself  
Turn your face to the stars  
I see you smiling

In summer I drowned you  
In winter I found you  
As the world falls apart around me  
The serpent is dreaming  
I don't know this feeling  
As we break through the other side

Walking north I can hide for a season  
Are you here in the dark with me?  
With your voice in the stars  
I hear you crying

In summer I drowned you  
In winter I found you  
As the world falls apart around me  
The serpent is dreaming  
I don't know this feeling  
As we break through the other side

In summer I drowned you  
In winter I found you  
As the world falls apart around me  
The serpent is dreaming  
I don't know this feeling  
As we break through the other side
