

Without You

The Birthday Massacre

Bitter tears flow through eternity
Lovers play out another tragedy
And you tell me

"Hold on, hold on"
I hear you say
"Hold on, hold on"
I'll come back for you"

I will wait for you
Tomorrow never comes
It can't be true
Life is not the same now
Without you
Just a memory
Everything's empty
Without you

Another night, another love song
Watching flowers die behind the wall
When you told me

"Hold on, hold on"
I hear you say
"Hold on, hold on"
I'll come back for you"

I will wait for you
Tomorrow never comes
It can't be true
Life is not the same now
Without you
Just a memory
Everything's empty
Without you

I will wait for you
Tomorrow never comes
It can't be true
Life is not the same now
Without you
Just a memory
Everything's empty
Without you
