

## Kiss Me Black

### The Birthday Party

hey-hey-hey-hey  
now they put the stink on us  
throw us to the succubus  
fed us to the incubus  
and brung in the Saprohagus  
c'mon and kiss me black  
black as the pit in which you found me  
she's like a dog you have to kick her  
sleeps like a swastica  
and says 'everyone's a winner now  
cos everyone's a sinner now'  
c'mon and kiss me black  
c'mon and sail your ships around me  
c'mon and kiss me black  
black as the sea in which you drowned me  
c'mon and kiss me black  
run your crusty cutless through me  
c'mon and kiss me black  
kiss me black and then undo me.
