

## Lonely Hearts

### The Black Box Revelation

Here I'm standing in our empty house

All my memories in a box

Loved my mother loved my dad

Could I bring them back with my last breath

Love my children love my wife

She's the one who keeps me alive

Come with me to a better place

She knows death, he's a friend of hers

Told me he's gentle still I'm not sure

I'm scared

I'm quiet

I'm gone

Come with me to a better place
