

Love Love Is On My Mind

The Black Box Revelation

Talking, kissing that eve
She was hot, she was sweet
I Had a drink in the bar
Took a walk on the street
And later on that night, I went back home
When I was back home
I heard her voice
She wasn't talking to me
But through the telephone
She left a message on my answering machine
It said
love, love is on my mind
Love, love, love makes me feel alive
The moment I met you, the place, the time
Love, love was already on my mind
The on thing I live for
It's like my gasoline
So we met again
I dressed up real good
Her read lips, red boots
We were kissing again
And then late that night she went home with me
And at my place
She had dinner with me
Romantic candle lights
Classic tunes
The master bedroom
Wanted to be satisfied
And she said
love, love, is on my mind
Love, love love makes me feel alive
The moment I met you, that place, the time
Love, love was already on my mind
The one thing I live for
It's like my gasoline
